Brian Nester

SOFTWARE DEVELOPER

Profile

I am a Junior Software Developer who enjoys working on projects with a range of technologies. My past experiences include technical as well as artistic projects that have allowed me to work with multiple teams. So far in my career I have been passionate about and successful in positions that let me use both my creativity and my communication skills. In my current search I am looking for a position that can provide me an opportunity to make an impact on my growth as while as the company.

Experience

Bar Manager, Market Tavern, Sykesville, MD

JULY 2017 — AUGUST 2020

- Provided bar patrons with optimal customer service.
- Acted as a support to other bartenders by creating drinks, and helping to maintain and stock the bar when necessary.
- Monitored bar inventory and made notes for needed supplies when necessary.
- Managed beginning/end of day operations.

Fellow at Software Engineering Immersive, General Assembly

SEPTEMBER 2020 — DECEMBER 2020

- Developed full stack projects with both frontend and backend frameworks.
- Developed in team environments, as well as collaborative environments with UX teams.

Education

Digital Media and Web Technologies, University of Maryland - University College,

AUGUST 2018 — MAY 2019

General Studies, Carroll Community College

AUGUST 2012 — DECEMBER 2014

Projects
